

Title	Controls and Indicators						
Tool #	5210	Creator	David G.	Created/Update Date	8/30/2023	T/N #	23-5210-005
Description: To explain the various controls and indicators on the Innova 5210 diagnostic tool.							

Controls

1. ERASE button: Clears Diagnostic Trouble Codes (DTCs) and Freeze Frame data, resetting the Monitor status.
2. SYSTEM MENU button: Opens a menu that displays the list of scan options available.
3. DTC/FF button: Shows the DTCs from the last scan and lets you scroll through them.
4. LINK button: Reconnects the tool to your vehicle's Powertrain Control Module (PCM).
5. MENU button: Opens the main menu of the tool.
6. LD button: Enables you to view real-time Live Data from your vehicle.

Controls

7. ▲ UP button: Scrolls up through menu options or additional data while in MENU mode.

8. ↵ ENTER button: Confirms a selected option or value in MENU mode.

9. ▼ DOWN button: Scrolls down through menu options or additional data while in MENU mode.

Indicators

1. GREEN LED: Shows that all engine systems and monitors are working correctly. No DTCs should be present.

2. YELLOW LED: Indicates a possible issue, such as a 'Pending' DTC, or incomplete emission monitor diagnostics.

3. RED LED: Indicates that one or more DTCs are present, suggesting a problem with one or more vehicle systems. The vehicle's Check Engine Light will also be on.

4. Display: A Color LCD that provides menus, sub-menus, test results, functions, and Monitor status information.
