

Title	Display Functions						
Tool #	5310	Creator	David G.	Created/Update Date	9/6/2023	T/N #	23-5310-003
Description: This guide will help users navigate and comprehend the display functions on the Innova 5310, specifically when scanning for the Check Engine Light.							

1. I/M Monitor Status Field:

- "Locate the status of I/M Monitor here."

2. Monitor Icons:

- "These icons represent supported vehicle monitors and their diagnostic testing status. A solid green means the monitor has completed its testing, while a flashing red signifies the monitor hasn't executed its testing yet."

3. Vehicle Icon:

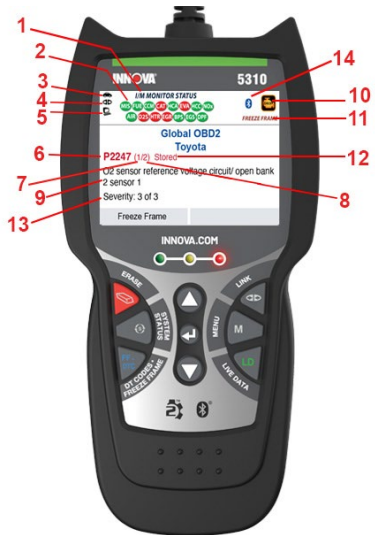

- "Visible? It signifies the Scan Tool is drawing power from the vehicle's DLC connector."

4. Link Icon:

- "When visible, it denotes the Scan Tool is communicating with the vehicle's computer."

5. Computer Icon:

- "A visible computer icon indicates a successful link between the Scan Tool and a PC."

6. DTC Display Area:

- "Displays the unique code for each fault, color-coded as:
 - RED for stored or permanent DTCs.
 - YELLOW for pending DTCs.
 - GREEN when no codes are present, showcasing the message: 'No DTCs are presently stored in the vehicle's computer'."

7. Code Number Sequence:

- "Each DTC has a sequence number, starting with '1.' '1' is always the highest priority, associated with Freeze Frame data."

8. Code Enumerator:

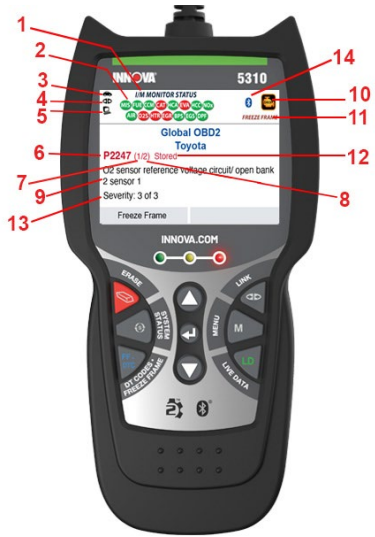

- "Showcases the total number of retrieved codes from the vehicle's computer."

9. Test Data Display Area:

- "Presents DTC definitions, Freeze Frame data, and other relevant test messages."

10. SYSTEM Icon:

- "Indicates the system linked to your DTCs. The icon varies depending on your scan. Possible icons include the MIL Check Engine Icon, ABS Icon, and SRS Icon."

11. Freeze Frame Icon:

- "This icon pops up when Freeze Frame data from the 'Priority Code' (Code #1) is stored in the computer."

12. Code Type:

- "Indicates whether the displayed code is Stored, Pending, or Permanent."

13. Severity:

- "Reflects the severity of the priority code (Code #1):"
 - 1 suggests scheduling repairs at your convenience.
 - 2 insists on immediate repairs if there are drivability issues or potential harm to vital components.
 - 3 demands stopping and repairing the vehicle instantly to avert detrimental failures."

14. Bluetooth Icon:

- "Represents the communication status with compatible Innova apps. A solid blue indicates an active Bluetooth connection."
