

Title	Display Functions						
Tool #	5210	Creator	David G.	Created/Update Date	8/31/2023	T/N #	23-5210-006
Description: Understanding these display functions will help you navigate the Innova 5210 more effectively, enabling more accurate and efficient vehicle diagnostics.							

1. I/M MONITOR STATUS: Indicates the Inspection/Maintenance Monitor status area.
2. Monitor Icons:
  - Green: The associated Monitor completed its diagnostics.
  - Flashing Red: The Monitor is supported but has not yet completed its diagnostics.
3. Vehicle Icon: Shows when the Scan Tool is powered via the vehicle's Data Link Connector (DLC).
4. Link Icon: Appears when the tool is actively communicating with the vehicle's computer.
5. Computer Icon: Indicates that the scan tool is linked to a personal computer.
6. DTC Display Area:
  - Red: Stored or permanent DTCs.
  - Yellow: Pending DTCs.
  - Green: No DTCs present.

7. Code Number Sequence: Indicates the priority of each DTC, with 1 being the highest priority.

8. Code Enumerator: Shows the total number of retrieved DTCs.

9. Test Data Display Area: Shows DTC definitions, Freeze Frame data, and other test information.

10. SYSTEM icon: Changes depending on the system the DTCs are associated with (e.g., MIL, ABS).

11. Freeze Frame icon: Indicates Freeze Frame data is stored for the priority code (Code #1).

12. Code Type: Specifies whether the displayed code is Stored, Pending, or Permanent.

13. Severity:

- 1: Schedule service at your convenience.
- 2: Immediate repair needed if there are drivability issues.
- 3: Stop and repair immediately to prevent further damage.

14. Bluetooth icon:

- Solid Blue: An active Bluetooth connection is established with a compatible Innova mobile application.
