

Title	Scanning & Viewing OEM Enhanced DTCs for Ford/Mazda Vehicles						
Tool #	5310	Creator	David G.	Created/Update Date	9/7/2023	T/N #	23-5310-008
Description: This guide is designed to assist users in navigating the Innova 5310 Scan Tool specifically for retrieving and viewing OEM Enhanced DTCs from Ford and Mazda-branded vehicles.							

Step 1: Starting the Process

- Ensure your tool is connected to your vehicle.
- Press the System Status button to access your list of scan options.

Step 2: Locating the OEM Enhanced Option for Ford/Mazda

- Scroll through the system menu options using the DOWN ▼ button.
- Highlight and select the OEM Enhanced option by pressing ENTER ↵.
- > Note: Ensure either Ford or Mazda is displayed to confirm vehicle compatibility.

Step 3: Confirm Vehicle Compatibility

- Choose Yes and solidify your vehicle's selection with ENTER ↵.

Step 4: Begin Scan

- A message, 'One moment please', will be displayed, indicating the tool is retrieving DTCs.
- Wait for the scan to reach 100% completion.

Step 5: Selecting the Testing Option

- Use the DOWN ▼ button to browse and select the desired testing option. Confirm with *ENTER ↵*.

For Continuous Memory DTCs: An instruction will prompt you to:

- Turn the ignition 'Off', then 'On' again.
- Confirm by pressing *ENTER ↵*.

For KOEO (Key On Engine Off): Instructions will guide you to:

- Ensure the ignition is turned 'On'.
- Confirm by pressing ENTER ↵.

For KOER (Key On Engine Running): Instructions include:

- Starting the engine and allowing it to warm up.
- Turn the steering wheel to the left and release.
- Press and release the brake pedal.
- Cycle the overdrive switch (if applicable).
- An advisory message, 'One Moment please', will appear as the test progresses.
