

Title	Navigating to System Scans						
Tool #	5310	Creator	David G.	Created/Update Date	9/6/2023	T/N #	23-5310-001
Description: This technical note will guide you through the steps to navigate to your system scans.							

1. Understanding the System Menu:

- "The System Menu on your Innova 5310 allows you to access different types of enhanced data. This data's availability can vary based on the vehicle's make. You also have the option to revert back to the Global OBD2 mode."
- "Please Note*: Not all features and functions may be available for every vehicle."

2. Navigating to System Scans:

- Step 1 (Accessing Scan Options):
 - "With your Innova 5310 connected to your vehicle, press the 'System Status' button. This action will bring up your list of available scan options."
- Step 2 (Selecting a Scan Option):
 - "You'll now see various scan options on the screen. Use the UP ▲ or DOWN ▼ buttons to scroll and highlight the desired scan option."
 - "Here are some of the options you might see: 'Global OBD2', 'ABS', 'SRS', 'OEM-enhanced DTCs', and specific OEM Enhanced DTCs for brands like Ford or Mazda."
 - "Once you've highlighted your desired option, press the 'ENTER ↵' button to access that particular scan."

3. Conclusion:

- "Following these simple steps will allow you to navigate to the system scans on your Innova 5310 and retrieve specific DTCs."

4. Offer Further Assistance:

- "If you encounter any challenges or have further questions about your Innova 5310, please don't hesitate to reach out. We're here to ensure you have a smooth experience."
